

New Online Certificate in Patent Prosecution from the University of Notre Dame

BUILD ON YOUR TECHNICAL SKILLS FOR A NEW CAREER IN PATENT LAW

The online Certificate in Patent Prosecution will prepare you to pursue a career in patent law at law firms, large tech companies, small start-ups, as consultants in private practice, or at the USPTO.

The Certificate's series of six courses provides live and pre-recorded online instruction designed and delivered by successful patent agents and attorneys, who work in industry, at law firms, and at the USPTO.

You'll learn:

- Patentability searching
- Patent application drafting
- Patent prosecution
- Patent prosecutor ethics

Not only do we offer the ease of online classes, but we also have August and January start dates. The 12-credit curriculum can be completed in one year—or spread out over three years.
